Come even if you don't bring a horse, but you'll miss out on a nice easy fun ride. It is a loop up high about 7 miles round trip (good conditioning for horses) around some little lakes with ducks, cattle, deer, and cranes. Our horses are barefoot and that is where we ride, so if a horse has been barefoot for awhile they should do just fine.

Directions: Our address is 220 Old Highway 55, Horseshoe Bend. Can't find us on MapQuest so,.... from Boise North on Highway 55, at the top of the high get in the left lane and make a left at Summit Ridge Road (it is the road

after Pearl Rd) go 3.5 miles...

From Downtown Horseshoe Bend.. head south on Highway 55, just after 60 mph sign, make a right on Old Highway 55, go 2.5 miles up the hill...

There is a lot of parking down by house (doesn't look like it from our road) and then out in the field above the house and along the road too... The field is fine for parking as long as it has been dry for a while. (By June we should be fine).. if all else fails there is enough parking along the road.. We get a car or two on the road, but our neighbors are aware (We can also get bike riders so that is good practice for horses too.)
