Broom Polo

Broom Polo (arena night pick up game)

Polo is a fun game, but chances are you do not have any polo mallets lying around. But if you have a broom--along with a simple rubber ball--you can find a wonderful substitute for traditional polo equipment.

To enjoy a fun game of broom polo just grab a kid's rubber ball and a couple of brooms, find a nice large field and have some fun. You and your friends can have lots of fun knocking the ball around on your "polo ponies," and your horses can have lots of fun, too.

Ball and Broom mallets will be provided. Two or three person teams depending on the number of members attending. Come play or watch!
