

Emmett Ranger District

The Emmett Ranger District encompasses 350,000 acres of National Forest. We manage more than 150 camping units in 21 developed campgrounds. There are additional dispersed camping opportunities across the district and some of these even include a few facilities such as toilets and ramps. We have three cabins that are available for rental, with one cabin available throughout the year. There are many hot springs across the district, and five of these are found near our trails and campgrounds. We maintain over 150 miles of trails to meet needs for motorized and non-motorized use. Our Payette River Project includes many rapids and river access sites with toilet and trash facilities that enhance an already incredible whitewater boating experience.

For more detailed recreation information click on the specific activity.

Emmett Ranger District
