

Little Donner Barn

Photo 10 x 16

Frame 22 x 26

It is a one of a kind shot and will be the only print from this angle. This barn sits at the north end of Little Donner pass, at Stonebreaker Road. You pass it every time you go to McCall on Highway 55. I took the photo in the Spring of 2009 and it is mounted with special fade resistant glass. The frame is constructed from old barn wood and has copper corners.
